* Students who enroll with a B2 English level must include "Advanced English" in their study plan, choosing either the C1 Test or a C1 International Certification. Students who enroll with a C1 English level, achieved during their bachelor's degree (e.g., DEB students), must include either a C1 International Certification or the "AI applications Lab" in their study plan. Students who hold a C1 International Certification and have not used it

to earn English credits in their bachelor's degree may use the certification for these credits or include the "AI applications Lab" in their study plan. Students who have already used the C1 International Certification to obtain English credits must include the "AI applications Lab" in their study plan. CSAL offers free preparatory courses for both the C1 Test and the C1 International Certification. The C1 Test is also administered by CSAL.

** Students who have "Financial economics and risk management" in their study plan cannot include "Financial economics" in their study plan.

*** If not already in the study plan.

**** Courses of the master degree in "Ingegneria Informatica e dell'Automazione – LM-32 R".
